

108. Scribbles

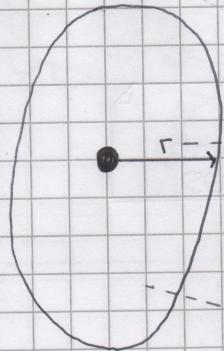

Virus: Scribbles

Background - pattern

Background - color:
lightblue / lightgrey

Background - cells

r = random dependency
of min- and max-radius

maybe add
pattern to
imitate
granulation?

color: add opacity between
33 and 55 to hex-color

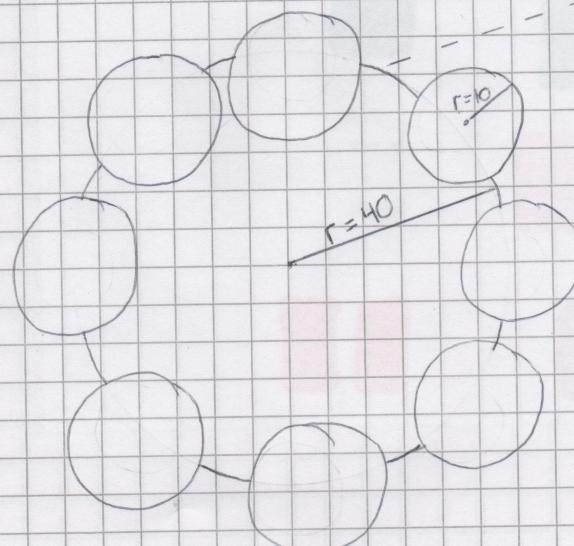

Since the cells in the foreground are from
the same cell tissue, they look the same,
they are just bigger

particles

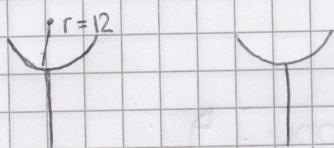

created like
cells above but
without nuclei

corona - Virus

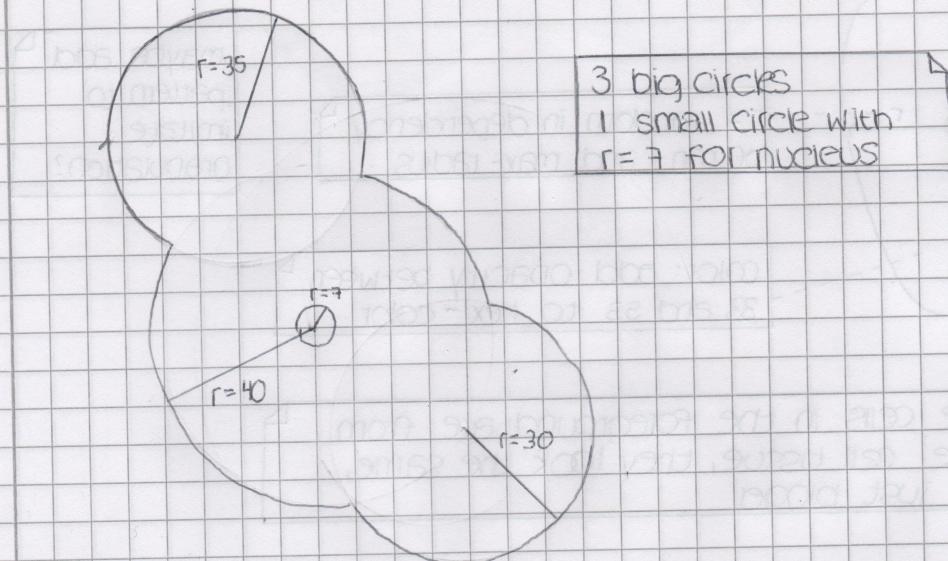

1 big circle
8 small circles

Antibody

Makrophage

3 big circles
1 small circle with
 $r = 7$ for nucleus

macrophage

antibodies

corona-cell
